

UK & IRELAND YEAR LISTING 2008

These are the current rankings for the year **2008**. Totals reflect only those species that are considered acceptable by the *UK400 Club*. Updated totals or new submissions can be added online or by post or telephone to Lee Evans on 01494 763010. The New Years Day competition on **1st January 2008** was won by a team from Suffolk, recording **130 species** (Matthew Deans, Craig Holden, et al).

Please note that totals published here are those that are considered acceptable by the *UK400 Club* and are not necessarily as high as some individuals claim elsewhere (eg on *Surfbirds.com*). Certificates are available for all birders recording totals of 300 species or more on condition of a fully submitted list. Birders finishing in the Top 5 may be asked to submit a list detailing with whom and where certain birds were recorded. The compilation below gives year totals for all those with a 2006 list in excess of 250 species.

Please note: All birders with 2008 Year List Totals of 300 species or more are eligible for limited edition certificates personally signed by LGRE. Please Email Lee on LGREUK400@aol.com for details.

UK400 Club 2008 Year List Totals as at **31st January 2008**
